FINAL CBIG-SCREEN ROUNDTABLE

CBIG-SCREEN is a Horizon 2020-funded project addressing inequalities in cervical cancer screening (CCS) across Europe. The project focuses on identifying and understanding the barriers that prevent access to screening for women in vulnerable situations, including those with a migration background, women living with HIV, and sex workers.

This Roundtable, hosted in the European Parliament by MEP Cynthia Ní Mhurchú, will highlight the key findings and recommendations from the project and provide a space for dialogue between researchers, civil society, EU policymakers, and public health stakeholders. The event will explore how best to remove persistent barriers to CCS and ensure more inclusive, equitable approaches to prevention and care across the EU.

DATE	CO-HOSTS	TIME	PLACE
November, 19th 2025	MEP Cynthia Ní Mhurchú EIWH CBIG-SCREEN	10-12 AM CET	Brussels, Belgium EU Parliament and online
